Accepted papers will be published in IEEE Xplore.

Authors of the best accepted papers will be invited to submit an extended and updated version for consideration for publication in *IET Biometrics*, probably in the form of a Special Issue.

The International Workshop on Biometrics and Forensics (IWBF) is organized by COST Action IC1106 – “Integrating Biometrics and Forensics for the Digital Age”. It is an international forum devoted specifically to the development of synergies between the biometrics and forensic science research areas. IWBF provides the meeting place for those concerned with the usage of biometric recognition systems in forensic science applications, attracting participants from industry, research, academia and users.

### Invited Speakers

**Anil Jain**, Michigan State University, USA

**Niels Lynnerup**, University of Copenhagen, Denmark

**Christophe Champod**, University of Lausanne, Switzerland

### Topics

Topics of interest include, but are not limited to:

- *Biometric evidence for forensic evaluation and investigation*
- *Audiovisual biometrics for forensics examination*
- *Soft biometrics for forensics examination*
- *Forensic behavioural biometrics*
- *Biometric analysis of crime scene traces and their forensic interpretation*
- *Combination of multimodal biometrics with other forensic evidence*
- *Ethical and societal implications of emerging forensics biometrics*

### Paper Submission

Prospective authors are invited to submit original and unpublished work, in English, with up to 4 pages, including results, figures and references. Submissions will be accepted only in PDF format and should be made according to the instructions provided on the web site.
